About Amber

Amber Morgan's performance overflows with personal warmth, charm and enthusiasm, leaving no question she is fulfilling one of her deepest loves. Since the age of five, her genuine talent and discipline in Tap, Jazz, Ballet and Vocals allowed Amber choices for a future in performing. Once aware she could bring smiles and touched lives with her voice, the choice was effortless.....singing. Amber demonstrates that great joy can also inspire great art.

In 1996, her professional attitude, artistic integrity and musical ambition were recognized at the early age of fourteen by the Christian Country/Country Music world, presenting Amber with the Tennessee Country Music Associations Career Achievement Award. A small number of her most valued accomplishments include: sharing the stage with music industry legends, performing at the Grand Ole Opry, The Ryman Auditorium and recordings that reflect her many influences in music.

Amber's a major music fan that listens and admirer's legendary singers from various musical backgrounds. This comfortable niche assists in her ease in delivering equally intricate vocals for a rowdy, boot-stomping County or heartfelt Christian Gospel melody. Amber's unique sound may drive innovation instead of following the pack, reflected in her recognized originals and highly anticipated seventh CD "Being Me" available May 2007. With a barrage of air-play, her songs exude a new maturity and infuse traces of both genre, producing a distinctive sound and one of a kind performance.

How does this soft-hearted teenage performer stay grounded with such a difficult touring schedule and numerous public appearances? "Just having some fun." Amber modestly replies, revealing that extraordinary smile audiences and fans have come to love and embrace. The continued support from her family, enthusiasm and an appreciation for a gift that allows her something beautiful to offer others, made for her humble ride to success.
